Memo to File:

Re: Atlas Minerals  
#2 & #6 Mines  
Emery County, Utah

This mine was inspected on the 21st of September 1977 by Brian Buck and myself.

Since the Division has received no filing on this underground uranium mine, inquiries were made of surface operating personnel on who actually controls the operation. It was revealed that Atlas is the responsible party and that the superintendant is Mr. Dwight Crosland.

Approximately five (5) surface acres are disturbed here by a combination of inclines, dumps, stockpiles, and buildings. Some of the disturbance is from former operations and some is new work.

Generally, the area has been cleaned up as a result of ongoing previously existing dumps and regrading, but no filing presently is current for the operation.

Atlas will be contacted relative to their responsibilities for a mining and reclamation plan for this operation.

RONALD W. DANIELS  
COORDINATOR OF MINED  
LAND DEVELOPMENT
